

SAMPLE BOOK

Sample book 2024-2025 Keuken Wrap Friesland

Een nieuwe look voor jouw keuken!

Voordat je begint met het ontdekken van onze uitgebreide collectie kleuren, willen we je alvast voorbereiden op iets bijzonders: je staat op het punt om verliefd te worden op de eindeloze mogelijkheden die wij bieden. Het resultaat? Een prachtig vernieuwde keuken die je woonplezier naar een hoger niveau tilt!

Bij ons kun je kiezen uit meer dan **300 folies**, het grootste assortiment in de markt. Van natuurlijke houtnerf tot industrieel beton en luxe marmer, alles is mogelijk. Mocht je je gewenste kleur niet kunnen vinden, laat het ons weten! We zoeken graag met je mee, want niet alles staat nog in ons sample book.

We begrijpen dat kiezen op basis van een online afbeelding lastig kan zijn. Daarom sturen we je graag **gratis samples** toe, komen we bij je langs met tastbare voorbeelden, of ben je van harte welkom in onze showroom. We willen dat je helemaal tevreden bent met je keuze, zodat jouw keuken precies de uitstraling krijgt die je voor ogen hebt. We helpen je graag!

Team Keuken Wrap Friesland

24-25 SAMPLE BOOK

Het thema van het samplebook 2024-2025 van Keuken Wrap Friesland draait om het creëren van een unieke en persoonlijke woonomgeving die volledig aansluit bij jouw individuele smaak. In dit boek richten we ons op de veranderende prioriteiten van consumenten en presenteren we ontwerpen die langdurige tevredenheid en inspiratie bieden. We verdiepen ons in de moderne levensstijl, waarbij een balans wordt gezocht tussen praktische uitdagingen en esthetische voorkeuren, en ontdekken welke trends het meest relevant zijn voor jouw interieur.

Nature Scape Een ode aan de natuur

De eerste trend die we zien, is de opkomst van Nature Scape kleuren. In 2024-2025 draait alles om het binnenhalen van de natuurlijke schoonheid in jouw keuken.

De kleurpaletten die hierbij horen, zijn geïnspireerd door de aardetinten en de majestueuze landschappen van de natuur. Denk aan warme grijs tinten, beige, donkerbruin en grijs die doen denken aan een indrukwekkende canyon of een ruige rotsformatie.

Materiaalkeuze: De materialen die deze trend ondersteunen, hebben een intense curve die lijkt op de gelaagde doorsnede van gedurfde stenen of rotsen. Deze afwerking vangt de grootsheid van de natuur en brengt het gevoel van buiten naar binnen, waardoor jouw keuken een serene en tijdloze uitstraling krijgt.

Mini-fullness De kracht van kleine veranderingen

De tweede trend is Mini-Fulness, wat draait om de voldoening die kleine veranderingen kunnen brengen. Deze trend richt zich op het creëren van een gevoel van volheid en gezelligheid door subtiele maar effectieve aanpassingen in de keuken.

Kleuren: Een verzacht palet van pasteltinten vormt de basis, met warme kleuren die worden toegevoegd aan lichtgrijs en een industriële zilvertinten. Deze combinatie zorgt voor een subtiel en verfijnd kleurenschema dat toch warmte uitstraalt.

Materiaalkeuze: De materialen die deze trend ondersteunen, hebben een intense curve die lijkt op de gelaagde doorsnede van gedurfde stenen of rotsen. Deze afwerking vangt de grootsheid van de natuur en brengt het gevoel van buiten naar binnen, waardoor jouw keuken een serene en tijdloze uitstraling krijgt.

Dopamine Dive Een kleurrijke reis naar jezelf

De laatste trend die we voor 2024-2025 zien opkomen is Dopamine Dive. Deze trend is een gedurfde en levendige keuze, geïnspireerd door de zoektocht naar persoonlijk geluk en expressie door middel van kleur en textuur.

Kleuren: De Dopamine Dive trend draait om een digitaal kleurenpalet met zachte tinten zoals pastelroze en lichtgroen, gecombineerd met retro kleuren zoals mosterdgeel, diep marineblauw en donkergroen. Deze combinatie van tinten brengt een speelse en toch nostalgische sfeer in je keuken.

Materiaalkeuze: Wat materialen betreft, zien we een interessante mix van klassiek transparant steen, onregelmatig gevormd burlhout met een vintage gevoel, en een verfijnde weefstructuur. Deze combinatie creëert een rijke, tactiele ervaring die zowel visueel aantrekkelijk als stimulerend is.
